

# Transcription Conventions and Documentation

Emirati Language Acquisition Corpus (EMALAC)

2011

Dimitrios Ntelitheos [Dimitrios\\_N@uaeu.ac.ae](mailto:Dimitrios_N@uaeu.ac.ae)

The transcription of the longitudinal data collected in this project is completed through later versions of the CLAN software (<http://childes.psy.cmu.edu/clang/>), which allow entering and analyzing Unicode CHAT files on Windows (98, NT, 2000, XP). This requires installing one or more Unicode fonts from the website's Library/Fonts area. Arial Unicode is selected as the default font (but other Unicode fonts may also be used). Older files can also be converted into UTF format using CLAN's CP2UTF program.

The font used in this project is *Arial Unicode MS (ARIALUNI.TTF)*, which allows the display of characters in most languages and includes a complete IPA extension. The font is included free in Microsoft Office Professional (or can be purchased from [www.fontmarketplace.com](http://www.fontmarketplace.com) for around \$29.95). The font is a very large file (around 23.0 MB) and includes 51,180 different characters.

The following tables illustrate the IPA symbols used in the transcription. The first column contains the IPA symbol, the second the IPA description of the corresponding sound, while columns three and four contain examples and their gloss.

## 1. Consonants

| PHONEME | IPA DESCRIPTION                 | EXAMPLE | GLOSS            |
|---------|---------------------------------|---------|------------------|
| b       | Voiced bilabial plosive         | babaah  | “father”         |
| t       | Voiceless alveolar plosive      | təʃab   | “she is playing” |
| d       | Voiced alveolar plosive         | daray   | “stair”          |
| m       | Bilabial nasal                  | mħammad | “Mohammed”       |
| n       | Alveolar Nasal                  | nħaal   | “slipper”        |
| f       | Voiceless labiodental fricative | fat'mah | “Fatima”         |
| ð       | Voiced dental fricative         | haaða   | “this”           |
| θ       | Voiceless dental fricative      | θalaaθa | “three”          |
| s       | Voiceless alveolar fricative    | sayaara | “car”            |
| z       | Voiced alveolar fricative       | ħziiz   | “Aziz”           |

|    |                                       |            |                   |
|----|---------------------------------------|------------|-------------------|
| ʃ  | Voiceless postalveolar fricative      | ʃuu        | “what”            |
| r  | Alveolar trill                        | raaḥ       | “he left”         |
| l  | Alveolar lateral approximant          | leeʃ       | “why”             |
| k  | Voiceless velar plosive               | kuurah     | “ball”            |
| g  | Voiced velar plosive                  | galam      | “pen”             |
| x  | Voiceless velar fricative             | ʔaxdʰar    | “green”           |
| ɣ  | Voiced velar fricative                | məɣrəfa    | “spoon”           |
| q  | Voiceless uvular plosive              | ħadiiqa    | “park”            |
| ʔ  | Voiceless glottal plosive             | ʔana       | “I am”            |
| h  | Voiceless glottal fricative           | hnaak      | “there”           |
| ʕ  | Voiced pharyngeal fricative           | nʕaal      | “slipper”         |
| ħ  | Voiceless pharyngeal fricative        | ħaraami    | “robber”          |
| dʰ | Emphatic voiced alveolar plosive      | dʰruus     | “teeth”           |
| sʰ | Emphatic voiceless alveolar fricative | t-sʰiħiin  | “you are crying”  |
| tʰ | Emphatic voiceless alveolar plosive   | tʰəmaatʰ   | “tomato”          |
| tʃ | Voiceless postalveolar affricate      | b-aʃtʰiitʃ | “I will give you” |
| dʒ | Voiced postalveolar affricate         | maʃdʒuun   | “toothpaste”      |
| w  | Bilabial approximate                  | ħilwa      | “beautiful”       |
| y  | Palatal glide                         | waayəd     | “a lot”           |

## 2. Vowels

| PHONEME | IPA DESCRIPTION | EXAMPLE | GLOSS  |
|---------|-----------------|---------|--------|
| a       | Open front      | ʔana    | “I am” |
| i       | Close front     | ʔənti   | “you”  |

|   |                    |         |          |
|---|--------------------|---------|----------|
| e | Close-mid front    | beet    | “house”  |
| u | Close back         | juu     | “what”   |
| ə | Mid central, schwa | dəktuur | “doctor” |

Geminate consonants and long vowels are represented as double sounds. For example:

|        |             |
|--------|-------------|
| ddaray | “the stair” |
| waayəd | “a lot”     |
